Quebec Premier Francois Legault announces that more freedoms will be stripped away under the pretense of public safety. This will involve a forced curfew on Quebecers. But who's really running the show in Quebec?

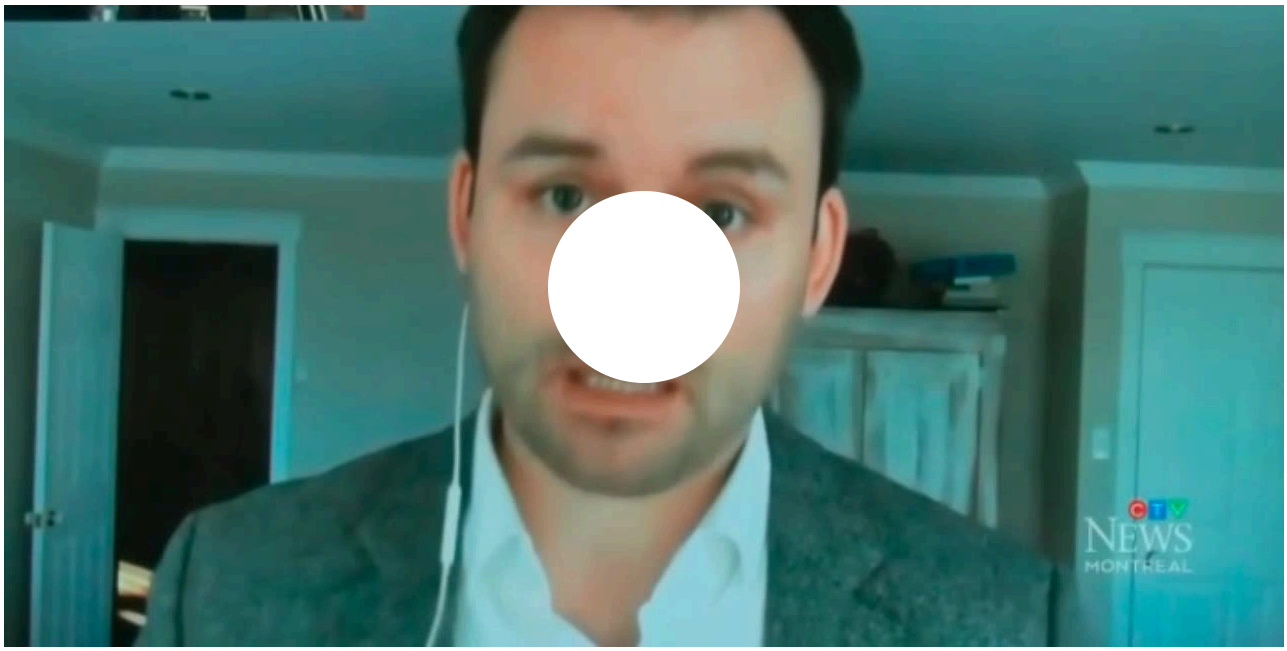
Quebec Curfew: All Parties Support It (No Bandicam Watermark)



To be fair, this not just Legault who is pushing this effort to impose a curfew. All parties in Quebec support it. Although they moan about the details of implementation, they are ideologically on the same page. Despite there being no evidence, none are willing to publicly reject it. This is only the appearance of opposition.

In October 2020, the Bill & Melinda Gates Foundation donated $541,566 to Global Canada, a "think tank" proposing martial law (a.k.a. lockdowns) throughout Canada. See the paper that is now publicly available. Keep in mind, that shills like Brian Lilley refused to properly cover that.

In October 2018, the Bill & Melinda Gates Foundation donated $7.3 million to UNESCO in Montreal. There was also $195,000 handed out in November 2017. Those are far from the only grants in Quebec.

Date Of Grant	Amount Given

November 2012	$1,488,773
November 2013	$2,351,021
October 2014	$196,305
October 2015	$100,000
August 2017	$652,488
September 2017	$50,000
July 2019	$629,970
April 2019	$524,285
April 2020	$839,644
September 2020	$1,227,508

Too lengthy to go into here, but it seems that an awful lot of powerful politicians have gone either to McGill, or University of British Columbia. Must be quite the networking opportunities.

CANADIAN GENERIC PHARMACEUTICAL ASSOCIATION CONGRATULATES FRANÇOIS LEGAULT AND THE COALITION AVENIR QUÉBEC FOR THEIR ELECTION VICTORY

Montréal, October 2, 2018 – The following is a statement by Jim Keon, President of the Canadian Generic Pharmaceutical Association (CGPA), on the election of François Legault and the Coalition Avenir Québec in Quebec on Monday :

On behalf of CGPA and its member companies, congratulations to François Legault and his team for their historic victory in Monday's Quebec elections. The CGPA wishes them every success in their majority mandate for the next four years. I also congratulate the elected representatives of all political parties, as well as the defeated candidates who participated in the important democratic process that has taken place over the last 40 days.

On behalf of CGPA and its member companies, ***congratulations to François Legault and his team for their historic victory in Monday's Quebec elections***. The CGPA wishes them every success in their majority mandate for the next four years. I ***also congratulate the elected representatives of all political parties, as well as the defeated candidates who participated*** in the important democratic process that has taken place over the last 40 days.

Our association ***looks forward to working with the new government on issues of importance to our members as well as Quebec's health-care system and its economy***. The CGPA and the Government of Quebec signed an agreement in July 2017 that achieves substantial savings for the health care system while helping to provide a more sustainable environment for generic pharmaceutical manufacturers. We remain committed to our ongoing partnership with the Government of Quebec.

Our association also reiterates its disappointment with the provisions of the US – Mexico – Canada Agreement (USMCA) that will delay Quebecers' access to competitively priced biosimilar drugs. ***Biologic medicines are the fastest growing segment in the health sector***. These delays will be costly to patients, the Government of Quebec and Quebec employers that sponsor drug plans for their employees.

Interesting. Is this normal to congratulate every politician who ever runs in any race? Or is in order to remain friendly with everyone, should the balance of power shift?

It seems that all major political parties are on board with the same vaccination and martial law initiatives. And it's the citizens who suffer.
